

11 1/2"

## Drilling Instructions

### Step 1. Attach Numbers to Plaque

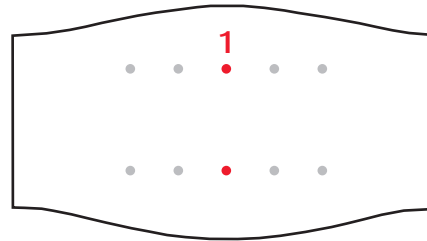

If numbers are attached to plaque, skip to step 2.

Based on the number of numerals in your address, drill through the appropriate pre-punched holes using supplied drill bit. (see chart at right) Attach numbers to plaque with supplied screws.

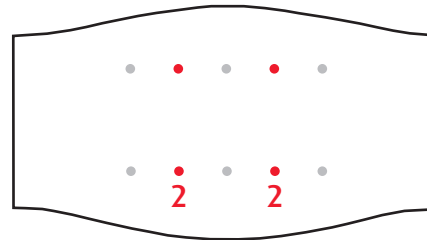

www.gainesmfg.com

If you have One Numeral in your address

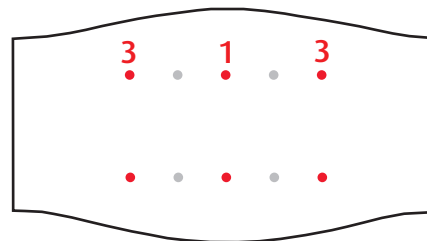

Drill holes marked 1 ONLY

If you have Two Numerals in your address

Drill holes marked 2 ONLY

If you have Three Numerals in your address

Drill holes marked 1 and 3 ONLY

### Step 2. Mount Plaque to Wall

Select location on wall. Level mounting template and tape to wall. Drill pilot holes through drill targets. Screw mounting screws into wall, leaving approximately 1/4" exposed. Hang plaque on wall. If desired, apply GE Clear Silicon II to back of plaque for permanent installation.
